Competition structure

The competition structure this year consists of two regional qualifiers, a regional challenge cup championships and an inter-regional challenge cup final. As a region we will continue to allow 'out of age' competitors to participate in the regional challenge & club cup championships.

In order to qualify from the two regional qualifiers into the regional challenge & club cup championships, competitors must achieve a minimum score (except club level disabilities). Note that for all requirements dictated by the national TC, if there is a conflict in requirements, the nationally published criteria will take priority.

To qualify from the regional challenge & club cup championships to represent the region at the inter-regional challenge cup final, which is only available for age groups specified in the British Gymnastics published competition information [here](#). competitors must place first or second (depending on category).

There will be no range and conditioning assessment this year however clubs are strongly encouraged to include appropriate strength and conditioning in the club environment.

Where competitors qualify for the regional final but do not finish in a qualifying position (not 1st or 2nd), if the level below them has not been fully occupied, competitors may be offered the opportunity to represent the region at the inter-regional finals at one grade lower. These will be offered in consecutive order of the position achieved at the regional finals. The maximum category reduction will be one grade. For example a competitor competes in regional 4 age 11-12 at the two qualifying events and regional final then places 3rd at the regional final. If there was a vacancy in the team at regional 3 age 11-12 the 3rd place competitor from regional 4 may be offered the place. They would not be offered a place in regional 2 age 11-12, even if there was space.
